

Can I afford a nanny?

Childcare is a top priority for families with working parents and a nanny is an ideal childcare option for busy families. The general perception is that nannies are only for upper class or wealthy families - FALSE!

If you're open to a live-in nanny and you have an extra comfortable bedroom available, it is generally the least expensive childcare option. In most provinces and territories, a full-time live-in nanny starts at \$ 390.00 - per week

Usually these nannies are from overseas and are on the Government approved Live-In Caregiver Program. Processing time is between 24-30 weeks, so plan ahead!

Some of the benefits of a nanny:

- Flexible childcare
- An affordable option
- Housekeeping
- Meal preparation
- Enjoy more quality time with your kids
